
Laws / Legislation

Reference	Date	Summary
-----------	------	---------

Act 200	2014	Authorized a certified first responder to use an AED when appropriate.
ACT 120	2011	All employees of a child care center are required to know how to operate an AED. Child care residences must have an AED in each building and a staff member with AED training present when residents are there.
AB 725	2010	Beginning in the 2010–11 school year, each school board operating high school grades, the operator of each charter school established under s. 118.40 (2r) that operates high school grades, and the governing body of each private school that operates high school grades shall offer instruction in cardiopulmonary resuscitation, cardiocerebral resuscitation, and the use of an automated external defibrillator to pupils enrolled in the high school grades in the school district, charter school, or private school.
SB 142	2007	Requires certain professionals to successfully complete training on use of an automated external defibrillator.
SB 186	2006	Extends immunity protection for users, owners, and providers of AEDs for acts or omissions in rendering emergency care in good faith.
AB 521	2000	Redefines the term first responder, and establishes criteria for the certification and recertification of first responders.
AB 239	1999	Provides immunity protection and establishes guidelines for AED use
